This is your astronaut, Captain Douglas L. Schmelzer. I am traveling on the 1970 Senior Rocket, on my way to the Planet Hayesburg. While on this trip my new machine, "The Schmelzer," will be able to view the personal lives of my old classmates.

Hang on as we take off! As we near the Planet Hayesburg, I think I see Joe Fichtner running around the track. I guess he's still trying to win the Mile, poor guy. Coach Bubak is still timing him. Circling around for a landing I recognize a wiggle, it's none other than Carol Lemon getting on a plane piloted by Mr. Clancey Burkes. Carol is head stewardess. As I'm still circling I see Miller's old Filling Station. It is now run by Rhondy Wilkinson's husband, Earl. The way it looks they are waiting for their fifth child. Since I can't get clearance to land, I think I'll check up on the two orneriest kids in the class. I can't seem to locate Kathy Sailors and Beverly Rucker. I'll have to try them later.

Taking a survey of this planet, I see they have a school. One of the teachers is Susie Foote. Seems she has trouble with a few know-it-all students. Reminds me of the time she - well I'd best not say.

Rambling on, I see Smith and Spickelmier Drive-Inn. Drinks 10¢, 15¢, and 25¢. Entering, I see the owners are Phil and Merle. All they serve nowadays are soft drinks. Have they ever changed! Leaving, and getting into my rocket again, I see it needs repairing. I pull into a little mechanic shop and out comes Nancy Ward, grease all over her. Nancy likes sports car drivers, so being a mechanic is her hobby.

Ready to take to the air I see a car, a green Torino. Driving it is Bev Unger, used to be Vinson. She and Jerry are getting along fine. They are living on Bev's folks' farm, which they gave them for a wedding present. I think I'll try Kathy Sailors again. AH! There she is, painting props and building columns. Wonder where Beverly Rucker is? She and Kathy were always inseparable. There she is, raising a lot of dust. Must be rodeoing or driving "Maude" in to help her friend Kathy paint. They have gone into business, when Kathy's not writing to Jim, and Bev's not rodeoing. Now I see Jerry Broz still searching for his I. D. bracelet. Seems when we were Seniors he misplaced it!

Hm! It couldn't be, but it is Mike Hamilton, better known as "Harly." He is the new planet Marshal replacing S. L. Looks like he's after a white Chevy with a black vinyl top. It's Wayne Christner. He has been peeling out and laying a lot of rubber, but he is only getting a warning. Now airborne again, I see Alvin and Allan Werkmeister working in the dust. Alvin is, anyway. Allan has an allergy, so he is the bookkeeper.

There is Phyllis Hoschouer just opening her new office. She is an accountant, takes everybody's quarters. Boyd Hicks is just opening his newspaper office. I think I'll have him print my story. He is busy answering all the girls' "Dear Fifis" about their boyfriends. In the meantime he steps "out" with them. Dan Kramer is following in his father's footsteps and now is running the Co-op as the top-notch oil checker and gas man.

Here is Ray Floyd, a big rancher. Ray is married and is really having a great time.

Last, but not least, is my old friend Rick Gohl. Still being an S. T. That means student trainer, but Rick thinks it means "Sex Teacher."

This is what the Seniors have been up to. How about Mr. Sokol, our sponsor? He is now the star of a T. V. show called "Hum-along with Johnny." He was discovered by a talent scout while humming to his volleyball girls. Lots of luck Mr. Sokol!

Well, that just about winds up this trip, I'm getting low on fuel, and I have to get back. This is your Captain of the 1970 Senior Rocket saying so-long!"

Chapter 3

THE BEGINNINGS OF GOVERNMENT IN THE UNITED STATES

The story of American government which grew into the great, free, and strong nation we know today is one of political thought's world. Not one was it pulled out of thin air by the *experts*. We, the people, influenced and shaped our government.

The Colonial Period

Our English Heritage. The French, Spanish, Dutch, Norwegian, and other Europeans settled in pockets of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies. They settled for 3,000 miles along the Atlantic seaboard.

These early Americans who cleared the wilderness and fought off the Indians had to pack out their own supplies and come home in search of game. Their future in the New World. But their

Settlers at Work

Early Americans tried to live together in harmony, or there would not have been so much talk of government in order to live." The beginning of which adds to the sound justice, economy, honesty, pity, charity, courtesy, and justice of the people, for example. And all of these were well-known in England long before the first Englishmen ever landed in America.

3.3. The Three Concepts of Limited Government and Civil Liberties

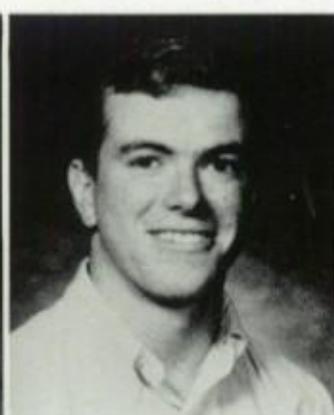

They borrowed with gusto from the traditions of limited government and civil liberties. That is, that government is not all-powerful, that government is limited in what it may do, and, generally, that it is limited in the sense

that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

3.4. The Concept of Representative Government

A third vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the
